SCLERAL LENSES

Specialty contact lenses designed to improve comfort, protect your eyes, and deliver clearer vision.

Creates a smooth surface and fluid reservoir that keeps eyes comfortable and hydrated all day.

Ideal for irregular corneas, severe dry eyes, or those who can't wear traditional contact lenses.

HOW IT WORKS

- Vaults over the cornea without touching it
- A layer of sterile saline stays beneath the lens
- Fluid reservoir keeps the eye hydrated
- Smooth surface improves clarity and stability

BENEFITS

- Improved vision
- Increased comfort
- Continuous hydration
- Stable vision all day
- Great for patients who can't wear standard contact lenses
- Customized fit

WHAT TO EXPECT

A detailed fitting process uses advanced imaging to customize your lenses for the best fit and comfort.

Ongoing monitoring and regular follow-up care keep your eyes healthy and your lenses working their best.

FEES

Scleral lenses fees include:

\$600
fitting fee

\$1,300
for the custom lenses.

Call our clinic to schedule a scleral lens consultation and learn how specialty contact lenses may improve your comfort, eye health, and vision.
